

START ENJOYING BETTER LISTENING TODAY

Once you've made the important decision to experience better listening, your hearing healthcare professional can fit you with Moda on your very first visit.

You'll know precisely how your new hearing instruments will look, feel and sound before you leave the appointment. That very same day, you'll be ready to take more pleasure from your conversations.

WHAT'S YOUR STYLE?

Moda comes in eight colors, allowing you to choose the look that suits your unique style.

ABOUT UNITRON HEARING

For 40 years, Unitron Hearing has been committed to making life better for people with hearing loss. To us, this means a commitment to not only develop high-quality hearing solutions, but to incorporate special features that really solve the everyday problems and concerns you have with hearing loss and hearing instruments. To you, this means a company that's listening – and responding – to what matters in your life.

TOTAL STYLE.
TOTAL PERFORMANCE.
TOTAL COMFORT.

Moda

ALL THE FEATURES. A FRACTION OF THE SIZE.

Looking for a hearing instrument that will optimize the way you hear conversations and one that's also virtually invisible? Moda is an ideal choice. Moda is an ultra-small and very comfortable hearing instrument that fits discreetly behind your ear. (This style is called BTE, which stands for behind-the-ear.)

With Moda, we've trimmed down size of a traditional BTE instrument, but kept the communication-enhancing features made possible with advanced digital technology.

GREAT LITTLE CONVERSATION PIECE

If you have a high frequency hearing loss, you may have been missing out on sounds such as children's voices or parts of speech in conversations. Moda makes it possible for you to enjoy the high frequency sounds of life again, with a comfortable, open fit.

TOTAL PERFORMANCE

Many of today's smaller BTE hearing instruments ask you to give up features and performance in the name of style. With Moda, you enjoy all the advantages of a regular-sized hearing instrument but at a fraction of the size.

Moda's advanced features work together to improve your ability to hear conversations and ease your listening comfort by:

- ▶ recognizing and enhancing speech
- ▶ identifying and reducing background noise
- ▶ tracking and suppressing noises, even if they are moving around your conversation, like a car driving by

COMFORTABLE TO WEAR

Moda is very lightweight and slender, for a comfortable, unnoticeable fit behind your ear. It connects to your ear with virtually invisible slim tubes, which are cosmetically appealing and very comfortable for all-day listening and wear. Moda's open fit allows you to hear more naturally, even the sound of your own voice.
